## Career Objective

I'm interested in programming and have worked on several projects where I built real features and solved technical problems. I want to keep growing my skills and contribute to building reliable and efficient software for your company. My goal is to improve every day, learn new technologies, and become a developer who brings value to the team and to the projects delivered.

## Personal Information

### Education

**2024 – Until Now:** A third-years Student (Junior Student) At Setec Institute Pursuing a bachelor's Degree in the field of Management Information technology (MIS).

Major Subjects: Programming, Web Development, Graphic Design, Networking.

**2017-2023:** I studied At Hun Sen Prasot high school learning general Education program.

Major Subjects: Math, Khmer, History, Biology, Chemistry, Physic, English, Science

### Online Course

**2023 – 2024:** Basic Web Development (University preparation course).

Major subjects: HTML, CSS, JavaScript, React, TypeScript.

## Work experience

Although I don't have formal work experience yet, I have worked on team projects at my institute where I built real features, solved technical problems, and learned how to work well with others.

## Skill

### Web Development

- Frontend: HTML, CSS, JavaScript, TypeScript, React (basic understanding), Angular
- Backend: Node.js, Express.js, C#, C++, Supabase
- Database: MySQL , MongoDB

### Design:

- UX/UI: Adobe XD, Figma, Canva
- Graphic Design: Photoshop, Illustrator, Premiere, InDesign

### AI:

- AI tools to speed up development, debug code, and learn new technologies faster. ( Antigravity, Claude, GitHub Copilot ... )

## Hobbies

Researching, listening to music, learning new things, working out, planning.

## Language

- Khmer – Mother tongue
- English – Intermediate
- Chinese – Basic
